Professional Summary

University programming graduate from UTN with experience developing and maintaining web systems using Python, Django and PostgreSQL. I currently work for the Chaco Ministry of Education, building statistical modules, database queries and features for management systems. I have also developed software for private clients and have knowledge of C#, Java, .NET and SQL Server. I am studying Information Security at UCASAL and looking to grow as a software developer.

Work Experience

Chaco Ministry of Education - Statistics Department
Python/Django Developer
July 2026 - Present

- Develop and maintain modules for the Education Data Viewer using Python, Django and PostgreSQL.
- Build the School Totals module with statistical indicators and counts by education modality and level.
- Implement dynamic geographic filters by setting, education region, department and locality.
- Write queries, validate and process data in PostgreSQL, identify incomplete records and prevent duplicate counts.
- Fix bugs, improve the user interface and maintain existing features while collaborating with the team using Git.

Software Projects

Kiosco Vida - Sales and Inventory System
Technologies: Python, JavaScript, HTML, CSS, SQLite, Tailscale
Built a business management system for products, stock, sales, payment methods and register closing. It includes inventory management, reports and access from multiple devices.

Agencia San Gabriel - Management System
Technologies: Python, HTML, CSS, JavaScript, JSON
Built a Windows desktop app for newspaper distribution, customer management, payment and expense tracking, and reporting.

Chaskibreñas - News Website
Technologies: Joomla, HTML, CSS, JavaScript
Modernized a news website with an admin panel for posts, categories, images and ads. It includes news search and a visit counter.

UTNStockAPI - Inventory Management
Technologies: C#, .NET, Entity Framework, SQL Server, ASP.NET MVC, Web API
Built an inventory API with a layered architecture, input validation and SQL Server storage.

Technical Skills

Languages: Python, JavaScript, C#, Java, SQL
Frameworks: Django, .NET, Entity Framework, ASP.NET MVC
Web development: HTML, CSS
Databases: PostgreSQL, SQL Server, SQLite
Tools: Git, GitHub, Docker, Linux, Visual Studio, VS Code

Education

Universidad Tecnológica Nacional
University Diploma in Programming - Graduated (diploma pending)
March 2022 - February 2026
Universidad Católica de Salta
Technical Degree in Information Security - In progress
April 2026 - Present
Big School
Ethical Hacking Course - Completed
April 2026

Languages

Spanish: Native
English: B1

Soft Skills

- Teamwork
- Problem solving
- Fast and continuous learning
- Adaptability to new technologies
- Logical and analytical thinking
